

Annex “Looking into the Past”

Think back to your childhood and answer the following questions:

How did you experience money as a child?

Did you receive pocket money and from when?

Did you receive money as a gift?

What did you spend your money on?

Was money talked about in your family?

Who made the decisions about everyday expenses (e.g. groceries, clothing, ...)?

Who made the decisions on major expenses (e.g. car, vacation, furniture, ...)?

Did you have any influence on family expenses? (e.g. with food, vacation, clothing, free time...)

When did you first earn your own money? What did you do with it?

How long have you been financially responsible for your own life?
